ABOUT US

ABOUT US

Our company stands for the safety, planning and logistics that you need in the international trade operations between China and your country.

We were designed to enhance the business relations and connections in this great but tough market.

THE CHINESE MARKET

SHANGHAI

With the second largest economy across the globe, China reached 14.3 trillion dollars of GDP growth in 2019, consolidating itself as the top international trade country, mostly because of their great potential for the exportation of quality commodities at a reasonable price rate.

OUR “WAYS”

Check in the next slides our method to import products with safety and easiness from China to your enterprise.

**WE ARE GOING TO
SHORTEN THE BRIDGE
THAT CONNECTS YOUR
COMPANY AND CHINA.**

04 MARKET SOURCING

Acknowledging our clients needs, we've built a vast and comprehensive network to operate inside the Chinese market.

We are going to round up the most cost balanced and trusted manufacturers in the Chinese grid, getting your product to your hands in a safe and convenient manner.

BUSINESS CONSULTING

Our team pledges to narrowly assess the operational, legal and fiscal details of each transaction and to handle the entire trading process for your company.

We assure that your expectations are going to be fulfilled.

PRE SHIPPING PREPARATIONS

By doing a in presence cargo check up before it's effectively sent, we guarantee that everything is in order: what you bought matches what is being shipped.

04 BUSINESS REPRESENTATION

We will be your physical and operational arm, with only one goal: defend your interests as our own.

We are available around the clock to mitigate the edge from China and your company.
